DECREE

The multicentric, prospective, observational, case-control, non-intrusive clinical research project titled as “**GOULASH-PLUS: The Longitudinal Study of Acute Pancreatitis. The Long-Term Follow-Up Study of the GOULASH-Study**” has been submitted for ethical review to the Scientific and Research Ethics Committee of the Medical Research Council by Prof Dr Péter Hegyi (12 Szigeti Street, Pécs 7624), representing the University of Pécs Institute for Translational Medicine (12 Szigeti Street, Pécs 7624).

I am pleased to inform you that the Scientific and Research Ethics Committee of the Medical Research Council **has granted ethical approval** of this research project.

8 February 2018, Budapest

This document is the official translation of the Hungarian ethical approval given by the Medical Research Council Scientific and Research Ethics Committee, translated by the University of Pécs, Institute for Translational Medicine.
