We're thrilled to announce that the videos of the 3-month Progress Report by our 23/24 PhD students are now available on YouTube! These presentations provide a comprehensive overview of the exciting progress and advancements made over the past 3 months.

[3-month Progress Report 2023/24](#)

In our latest podcast episode, we feature Márk Pulay, a student from the András Pető Faculty. Explore the world of Translational Medicine through Márk's journey, as he discusses his research and experiences in the field.

Join as we delve into innovative therapies and advancements at the Centre for Translational Medicine, aiming to enhance the lives of those with neurological challenges.

Don't miss out on this enriching conversation – tune in to the latest podcast episode now!

Our previously released podcasts are available on the following link:
